Re: EPA Identification Number: PAD 00 080 0680
Facility Name: Hamilton Technology Inc., Lancaster

Dear Mr. Bernhardt:

This letter constitutes a formal request for Part B of your application for a hazardous waste management facility permit under the Resource Conservation and Recovery Act (RCRA) for the facility referenced above. This request is made under the authority of regulation 40 CFR §270.

Under Federal requirements, an existing interim status facility that has been requested by EPA to submit a Part B is allowed at least six months to submit the required data to EPA. EPA then has 60 days from the date of receipt of a Part B submittal in which to notify the facility whether or not the application is complete. If it is not complete, EPA issues a Notice of Deficiency advising the facility as to what must be submitted for the application to be determined complete. The facility then has 30 days in which to submit the required information; otherwise, it may be subject to an enforcement action and possible loss of interim status.

The Pennsylvania Department of Environmental Resources (PA DER) is presently reviewing the application for this facility which you submitted to them. EPA would prefer to review and process your permit jointly with PA DER since this could minimize duplication of effort by you and the Agencies. Although, as stated above, you have six months to submit your Part B application to EPA, the earlier it is submitted the better the chances of avoiding such duplication.
